

MOBRA Brand Guidelines

MOBRA - Mobile Operational Biosecurity Readiness Assessment

Concept

The shield represents governance and containment; the mobile laboratory silhouette represents deployable context; the connected geometry represents traceability. The identity is original MOBRA artwork and does not imply endorsement by WHO, ISO, CDC, NIH, military, government, or any other third party.

Usage

Use the full logo on light backgrounds, the icon at small sizes, and monochrome artwork when colour is unavailable.

Do not stretch, recolour arbitrarily, add third-party marks, or present MOBRA as endorsed or certified.

Typography and layout

Minimum guidance

- Prefer a clear sans-serif hierarchy, generous whitespace, and labels alongside icons.
- Use amber for conditional attention and red only for critical warnings; do not rely on colour alone.
- Keep the application definition, prototype status, author, and disclaimer visible in public materials.
